

## **Consumer healthcare**

Answering patients' needs can involve treating headaches, a persistent cold, allergies... or a child's cough.

Today, Sanofi is a global leader in the treatment of life's daily ailments.

In the United States, for example, allergy treatments...are now available over-the-counter.

This meets the needs of more than 40 million Americans.

And in Brazil, Sanofi is increasing the production of generics...to meet rapidly growing demand.

Because our ambition is to improve the daily well-being and health of 7 billion people.
