

## **Animal health**

Because 7 billion people on this planet need to be fed.

Because we are regularly faced with epidemics that kill livestock and even spread to people.

Because pets are an important part of the family.

Animal health is one of Sanofi's core businesses, and Merial, a Sanofi company, is a world leader in animal health.

Merial employees develop treatments that improve the health and well-being of livestock and pets.

Merial is also a reference in the fight against rabies, foot and mouth disease as well as avian flu...

Because protecting animal health is protecting our health.
